Enthusiastic and detail-oriented Frontend Developer with 4 years of experience as a Senior System Engineer. Skilled in UI/UX development, responsive design, and modern web technologies. Passionate about delivering exceptional user experiences and staying updated with emerging trends in web development.

SKILLS

Frontend Technologies & Tools: AngularJs, Typescript, Javascript, HTML5, CSS, Bootstrap, Reactjs, JIRA

Backend Development: : Node.js, Postman, AWS Lambda, API Gateway, SQL, PostgreSQL, Redis, Github

WORK EXPERIENCE

Infosys

Senior System Engineer

Chennai, India

September 2021 – Present

- I gained 4 years of experience developing UI designs and features using various programming languages, including HTML5, CSS, and TypeScript.
- I implemented responsive designs and ensured cross-browser compatibility for different screen sizes. Additionally, I utilized frameworks like AngularJS to build complex web applications.
- Understood client requirements and designed tailored solutions, ensuring development aligned with their needs.
- Optimized websites for performance across devices.
- Demonstrated flexibility and adaptability in day-to-day tasks.
- Applied knowledge of industry trends to enhance services.
- Wrote high-quality, scalable, and reusable code.
- Collaborated with back-end developers to integrate UI components with APIs and databases.
- Debugged errors, resolved issues, and conducted routine performance optimizations.
- Possesses a basic understanding of Java and Spring Boot, enabling seamless collaboration between frontend and backend components.

PROJECTS

INTEL Chatbot Implementation

September 2021 - August 2025

- This project was deployed in prominent branded retail stores and other venues, allowing users to engage with an AI-integrated avatar chatbot.
- This chatbot helps customers by delivering personalized product recommendations from Intel's offerings, tailored to their specific needs and requirements.
- The avatar presents a tailored list of products, accompanied by all relevant details, aligned with the user's preferences and usage patterns.
- Designed and developed a fully responsive AI-powered avatar chatbot with visually engaging components, utilizing Angular and TypeScript for seamless functionality across both web and mobile view.
- Implement the UI design from Figma and develop reusable components with high-quality code using AngularJS.
- Trained the avatar's data using Large Language Models (LLMs) and retrieved data by creating Bedrock prompts in AWS Lambda.
- Ensured minimal bugs in the codebase and efficiently addressed any issues raised in JIRA.

EDUCATION

Panimalar Engineering College

Bachelor of Engineering in Computer Science **GPA:6.5/10.00**

Chennai, India

Jun 2015 – May 2019
